

Groove Coverage, When Life

Strophe I:

I defy myself, I'm living in a lie, like no-one else.
Just take a look and you will see, that paranoia is a part of me...

But there are days without an end, there is enemy and friend...
Please God help me to survive this life!

Strophe II:

Look behind-go ahead, many things, that make you sad-
you can change your way.

Im living on the edge of yesterday. My memories course to fade away...

But there are days without an end, there is enemy and friend.
Please God help me to survive my life!

Refrain:

When life is on the longest way
Then life becomes your love one day

When life takes all away from you
Theres nothing you can do

I try to find my way somehow
Im floating on the highway now

Tomorrow is a brighter day
You know we can not stay...
