

# Groove Theory, Baby Luv

There's something I know I should of told you  
Something that's growing everyday  
Whether or not  
I say it a lot  
I'm down with you in every single way  
Gonna be days when you are lonely  
And people will say they got no time  
When you're alone  
Call me on the phone  
Baby, you always got mine  
And when the wind blows  
Baby, don't cry, just remember my words

[chorus:]  
Baby luv  
Gentle as raindrops falling in June  
Pretty as sunshine  
And flowers in bloom  
Baby love

As long as you're happy, I'm happy too  
It's a delight  
You're in my life  
You got a glow that just surrounds you  
When I'm with you I'm shining bright  
Honey, it's true  
I love the way you do  
And I could tell you every night  
You're so lovely when you're laughing  
It makes my day just to see you smile  
Didn't you know  
When you played in the snow  
You set my winter on fire  
And when the wind blows  
Baby, don't cry, just remember my worlds  
Baby love  
Gentle as raindrops falling in June  
Pretty as sunshine and flowers in bloom  
Baby love  
Long as your happy, I'm happy too  
It's a delight  
God gave you life  
Baby love  
Ooh, baby luv, baby, baby

[chorus]
