

# Groove Theory, Didja Know

Didn't you know?

I always said I'd be by myself

Never wanted no man's money

Didn't need no help

There was a time I was all for love

But all it took was one heartbreak and I'd had enough

Just when I thought I had no reason

You come along and showed me life has just begun

[Chorus:]

Didja know, I would go

Anywhere you roll cause with you it's home

Didja know it, didja know it

Didja know it, didja know it

Does it show, When I'm low

You could ask me to smile and I'd do so

Didja know it, didja know it

Baby Didja know it?

Didn't you know

I can't believe your treatin' me this way

All the words I need to be hearin'

Are the ones you say

Finally I got someone on my side

Never leave when times get hard

cause we got nothing to hide

Just when I thought I had no reason

You came along and showed me life has just begun

[Chorus]

I think it's time I let you know

Wherever you are is where I'll go

No matter how far you go I'll show

Cause it's all about you

I think it's time I tell you baby

That I'll be your one and only

Cause when I'm with you it's like

Heaven on earth

Oh no Oh no

Didn't ja know

[Chorus: out]
