

Groove Theory, Time Flies

[chorus:]

Oh how time flies, since we said hi
But now it's time we said goodbye
Oh how time flies, since we said hi
But now it's time we said goodbye

Here we are
Look how long it's been
We come far and I remember when
We were young
Having fun
Dancing 'til the dawn
Now we're grown
On our own
Everybody's moving
Everything is changing
Nothing stays the same
Even though we're leaving
We'll be coming back again

[chorus]

The loves, the laughs, the good ones and the bad
My precious memories of the times we had
Chances are
We'll go far
I know our day will come
Never lie
Don't deny
Just remember where your from
Everything is changing
Nothing stays the same
Even though we're leaving
We'll be coming back again

[chorus]

Time it flies on by
You know it, baby
Time it flies on by
You're on my mind, you're in my heart
You're on my mind, on my mind

[chorus]
