

Groundswell, Poison Ivey

I scream your name
And I hear no answer
In these times of darkness
I'm crazy sober
Well I want this bad
When I'm through and through the pain
And I got this feelin'
I'll never see you again
Now someone please help me
Help me, be me
But I live for you
And I, I need you here with me
But don't leave me here
Take a look I'll be your man
I look around, all around
And it's you that's in my hand
Trust me (REPEAT 5x)
Well I feel like cryin' and dyin'
And it's no wonder
I gotta hold my friends I'm feelin'
Like I'm going under
Don't leave me here
Take a look, I'll be your man
I look around, all around
And it's you that's in my hand
Trust me
I'll take you to a place I've seen
You'll never come right back to me (REPEAT 4x)
