

# Guardian, The Way Home Back

Everybody's got something  
They can give everyday  
Make a little bit better  
Help somebody find the way  
This old life keeps rollin  
Surely does everyday  
Make a little bit better  
Help somebody find the way

Gotta light the way  
On the way home back  
Light the way  
On the way home back  
Light they way  
On the way home back  
Light the way

Everyone's got something to say  
Lookin' on to a better day  
We forget there's a price to pay  
Got to give to give it away  
Say help me  
Help me, oh my Lord

Standin' cold in the pouring rain  
Trails of life are never vain  
Don't let the call be put to shame  
Gotta serve if you want the same  
Say send me  
Send me right now  
When my Savior Lord walked the Earth  
He talked about a second birth  
Spilled His blood out on the ground  
Gave His life without a sound  
Say not mine
