

Guena LG, Brighter (feat. Gravitonas)

Break from the night
You gave me hope to keep on moving
And I come to seize the light
turn up the love, everything is brighter

I never thought I'll be here
The world has stopped believing
Stuck in the pain
The colors are pale
and I'm breaking down,
I'm breaking down.
This planet isn't turning
The building has been burning
down in the rain
But now, all of sudden
You're on my side,

I was caught in a trap
Lying in the low
and then the touch of your hand
Made me see the flow
You gave me strength to move on
so I could let go, and you know
Everything is brighter

Break from the night
You gave me hope to keep on moving
And I come to seize the light
turn up the love, everything is brighter

You changed the way I see things
You made me realize,
I'm head of the game
The colors are bright,
and I stand my ground
I stand my ground
The level's getting higher,
the crowd has caught the fire
breaking the chain
From now and forever
I'm on your side
I'm on your side

I was caught in a trap
Lying in the low
and then the touch of your hand
Made me see the flow
You gave me strength to move on
so I could let go, and you know
Everything is brighter

Break from the night
You gave me hope to keep on moving
And I come to seize the light
turn up the love, everything is brighter

I wanna cry out loud
to keep on moving now
We fire up the crowd and I know

I was caught in a trap
Lying in the low
and then the touch of your hand
Made me see the flow

You gave me strength to move on
so I could let go, and you know
Everything is brighter

I wanna cry out loud
to keep on moving now
We fire up the crowd and I know
Everything is brighter

Break from the night
You gave me hope to keep on moving now
And I come to seize the light
turn up the love, everything is brighter
