

Gufs, Die Away From You

(G. Kralj, D. Kralj)

Please stay a while

You my friend are on your own

Start listening

Realize you're on your own like me

So misunderstood

Let him die some other day

Stop questioning

If he lived some other way like me

We belong to the day where all our feelings prey

Then die away from you

I bid you well

Time lingering

Soon you'll see Him on your way

No more questioning

Everybody fades away

We belong to the day where all our feelings prey

Then die away rom you

We belong to the day there's so much left to say

As I die away from you

I'm dying
