

# Gufs, Fear Me Now

(G. Kralj, D. Kralj)

Fear me now

I'm crawling back to you

Understand your decency invades my brain

I will find another place inside that's warm

You will see my blood upon a stranger's hand

Hear me calling

Catch me girl I'm falling

Down upon my knees

Someday I will find you

And conceive you

But for now we are tired anyways

Hear Him speak and whisper words so insincere

Leave me now I understand the things you've done

Sun go down

Let the dawn arrive

We are tired
