Gufs, Listen To The Trees

(G. Kralj) We will find a happy place in time Where people can collide And share their thoughts and recognize That we will be if we listen to the trees Now it's time to put the past behind And simply draw a line That won't be crossed or redefined And we will be if we listen to the trees So get up off your knees I'm begging you to please Watch the falling leaves Don't eliminate the face At such a timely pace To wash the human race So we can listen to the trees We will find a safer place in time Where children learn to try To save the colors of the sky And we will be if we listen to the trees So get up off your knees I'm begging you to please Watch the falling leaves Don't eliminate the face At such a timely pace To wash the human race So we can listen to the trees And we will be We will be We will be If we listen to the trees
