

Gufs, Loser's Love Song

(D. Kralj, G. Kralj)

She skipped along her way
A silicone smile was stapled to her lips
A thirsty young boy it was his name
And on a straw he sucked
The young losers love song on the radio
Hear it cry out loud
A daisy green sun was high in the sky
It showered their world bright
You don't love me
Love me right now
You don't know me
Know me right now
They found a heart shaped world
Filled with dreams they're happy as two fleas
They walked on clouds in the radio
Hand made this heaven home
Shame
