

# Gufs, Lost Along The Way

she got lost along the way  
nowhere left to go  
and no one else to blame  
everything inside held dear  
i want to know, baby  
what are we doing here?

she got lost along the way  
sorry things went wrong  
what else was he to say?  
everything inside was new  
and you should know, baby  
every thought is of you

everything will be alright and beautiful  
and she deserved a little more

how can we find another?  
girl don't make me try  
i want to know just how it all began  
how can we have another?  
girl don't make me try  
i wonder just how it all began

we got lost along the way  
even though it's gone  
her spirit still remains  
we were young and thought that we  
could find the time for our baby  
someday i hope to see

everything will be alright and beautiful  
and she deserved a little more

how can we find another?  
girl, don't make me try  
i want to know just how it all began  
how can we have another?  
girl, don't make me try  
i wonder just how it all began  
the words i often hear
