

Gufs, Smile

i cannot control the way i feel
she said won't you play with something real
i was different from the others boys
always watching, never wanting more

i cannot control the things i do
she said won't you come i wanted to
taken to another place in time
never felt this good or been so high

is it any wonder what we are doing here
you cannot control this anymore, my dear
is it any wonder what we are doing now
you cannot control me anymore

learn to live without you for a while
and i can now control you with a smile
tried to live my life just for a while
and i can now control you with a smile

i cannot control the way i feel
she said all of this was never real
i am no different than the other boys
i will leave you never wanting more

is it any wonder what we are doing here
you cannot control this anymore, my dear
is it any wonder what we are doing now
you cannot control me anymore

tried to live without you for a while
and i can now control you with a smile
tried to live my life just for a while
and i can now control you with a smile
