

Guided By Voices, An Earful O' Wax

When you come around
I can still be found in another world
Pick a number or a name
Its my favorite game in another world

Hey man, what was that we said?
Im going deaf
I chase the widely open spaces
Built in my head

Cant make out what you say
Wont even pretend to care in another world
When it all gets bad
Everything turns off in another world

Hey man, what was that we said?
Im going deaf
I chase the widely open spaces
Built in my head

And the shadow of the adversaries
Filled and I shall play
Pass the plate and let us pray
Cause its only a trick of the light

(liquidy vocals that I can't figure out)
