

# Guided By Voices, Atom Eyes

I'm dreaming and so it must be true  
Nothing else could look as good as you do  
And so in a rocket go  
Up to where the astros flow into space  
Don't hold me down

Atom eyes, don't worry your brain  
Take a break from every day  
Sell the house, the car, the pain  
Atom eyes

I'm running away from your clues  
Atomizer sprinkler are spraying perfume  
Escape a lobotomy  
There's a million heartstrings ready to fly  
Let's pull them now

Atom eyes, don't worry your brain  
Take a break from every day  
Sell the house, the car, the pain  
Just be sure to live again  
Atom eyes

Atom eyes, don't worry your brain  
Take a break from every day  
Sell the house, the car, the pain  
Just be sure to live again
