

# Guided By Voices, Can't Stop

(J. Pollard, R. Pollard)

{chorus}

I know I'm wasting time  
Now and then I just want to run away  
Please believe I (don't) mean what I say  
But (cause) you know I just can't stop anyway

Gotta know one thing (babe)  
Gotta listen to me  
Just a little more room now  
You gotta set me free

Make up your mind baby  
Straight from the line baby  
You never really had to look through me  
You shouldn't really be that way

When we touch with our tenderness I brought (don't want) too  
much and happiness blows away

{chorus}

I can't stop anyway  
just not anyway  
I can't stop it anyway  
I can't stop it anyway  
I can't stop it anyway
