

Guided By Voices, Chief Barrel Belly

I get mad at this world
Sit up and scream about it
Every dog has its day
And now they dream about it

He said love is the one thing
We needed in this world to be happy
He said love is the one thing
We needed in this world to be happy

Got a mouth full of teeth
Got to end this searchin
I got down on my hairless knees
For a tax reduction

He said love is the one thing
We needed in this world to be happy
He said love is the one thing
We needed in this world to be happy

He said love is the one thing
We needed in this world to be happy, to be happy
He said love is the one thing
We needed in this world to be happy, to be happy

He said love is the one thing
We needed in this world to be happy, to be happy
Happy
Needed in the world to be happy
Happy
He said love, he said happy
He said happy, hey
