

Guided By Voices, Cooler Jocks

Broken link in a long chain
Bottom of the line for the pupil
Can only mean one thing
To waiting hordes and takers
Who hadn't had enough
This really sucks
I had to run to defend
Oh what shame can do

Ducking out of sight
What a painful view
Run & find some prescription
To bring back a peace
And grant us a party of five
An entourage of three
A game before eventually you lose
