

Guided By Voices, Dodging Invisible Rays

Slow down to a cool crawl
Until your knees weak until your legs fall
Slow down to a cool crawl
Don't give your feet speed
Until the end calls??

Chorus: In the first place
Who could blame you
In the second place
You're insane
I get the feelin' that
You're just circling around

Slow down to a cool crawl
Until your beauty fades until your muscles fall
Slow down to a cool crawl
Until your breath goes until a hush falls

Chorus (replace "get" with "like")
Repeat first verse
