

# Guided By Voices, Drinker's Peace

At times I wish I were dead  
Busy people dancing all over my head  
Real shock value with every move they make  
Real bad headache with every step they take

I get a contact buzz  
Cant remember what the problem was  
I find it hard to even care  
Life was too real till you got there

My life is dirt, but you seem to make it cleaner  
Reduce my felony to a misdemeanor  
When I feel sick, youre an antibiotic  
Organize my world, my worlds pointless and chaotic

I get a contact buzz  
Cant remember what the problem was  
I find it hard to even care  
Life was too real until you got there
