

Guided By Voices, Dusty Bushworms

This song will hold you in its arms
This song will fill you with its charms
Wrap it around me every night
It's gonna love you with its light
Are you lonely in your life
Pick you up from all your strife, oh
I won't disown you in this hour
Not like a man who doesn't care

Dusty bushworms in your life
Crusty humans make you blind
Some of them grounded just can't fly
Come up and hit you in your eye, oh
Some of them grounded just can't fly
Come up and hit you in your eye, oh
