

Guided By Voices, Is She Ever

Is she ever with intent when she likens herself to a crow?
Will she crow and say bingo?
"I'm a believer" she tells me
But is she ever going to cry
When the directors bark from out there in the dark
Fly sister vibrate - you were automatically free

The moment you came to me
Is she ever coming back to me?
Is she ever coming back to me?
Say it loud and we shall see
Is she ever coming back to me?
