

Guided By Voices, Key Losers

Oh darkness makes them cringe - perhaps caught

Respectable - impeccable - not taught

The key losers

Not to trust in instinct - blame them

No wait! don't tame them

They will let you down every time, the key losers

In the clutch - twice as much

In the long run - final gun

Down the stretch we couldn't catch

The part-time players - the scrubs

Consistently choking, the roach coach is smoking
