

Guided By Voices, Look To The Left

Look to the right of you
Look to the left of you
Put your head in the middle
And look to the right of you
Put your nose in the middle
And look to the left of you
Come on, come on, come on, come on, come on
Look to the right of you
Come on, come on, come on, come on, come on
Look to the right of you
Baby, don't you understand my intentions for you?
Look to the left of you
Baby, don't you understand me intentions for you?
Look to the right of you
Come on, come on
Come on, come on

Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Round and around and around and around
And around and around and around we go
Look to the left of you
Look to the right of you
Get it up go, hey!
Let's go to town and
Look to the middle
Look to the left
Look to the right
And look for the details
