

Guided By Voices, Mincer Ray

(i don't know)

mincer ray don't worry
if the road's a little worn
it's a cold and filthy cavern
that we're traveling on

richer day assured me
of the weak-link mending plan
danger's always there to follow
just do the best you can
and a light shines down...

mincer ray don't worry
if the road's a little worn
it's a cold and filthy cavern
that we're traveling on
and a light shines down
and a light shines down..
