

# Guided By Voices, North American Vampires

Sensitive Einsteins  
A crusty New Waver  
North American vampires  
Replacing a savior  
Release time for automobiles and ships  
Dig the slips  
Down the spirals are hip  
It's the end of the road, or apparently...

On the westbound trail  
The wind in their sails  
On the other end of the spectrum, tainted blood...
