

# Guided By Voices, One More

Four elements, pay tribute  
to one more  
all people  
good hearts  
One more  
have you discovered  
another cold planet  
one more  
have you discovered  
another cold planet  
one more  
Moses from the mountain  
give us another rule  
one more  
noses to the window  
eyes that can see

one more  
have you invented one more?  
Another bad memory  
one more  
a stunt learnt  
a microsecond burnt  
one more  
another stage dive  
another headache  
one more  
have you reported  
by nine to all the glory  
of one more!  
Out there in the wild universe  
the open book  
the baited hook.
