

Guided By Voices, Scorpion Lounge Shutdown

My fist did a one arm swing
You would be happy to know
Credit crap sinking on my fish string
You would be happy to know
You would be happy to know it

Came in to town
These are for real
The race is what thrills me
I'm going down to Scorpion Lounge
To find the face that kills me

You would be happy to know
You would be happy to know
You would be happy to know it

Came in to town
These are for real
The race is what thrills me
I'm going down to Scorpion Lounge
To find the face that kills me

Real somethings are real
Find the face that kills me
I'm going down to Scorpion Lounge
To find the face that kills me
I'm going down right through the town
To visit the real that thrills me
I'm going down to Scorpion Lounge
To find the face that kills me
