

Guided By Voices, Sensational Gravity Boy

Long road black road touch the road
It's a hard road
Spontaneous combustion
Final decision it's the only way
Straight up off from the aggressive rock
Intelligensia
But I feel no pain
From the vacuum that sucks me in

Chorus: I saw you drifting away
With your car today
With the world rushing by
In the wink of an eye
Move away from the whip

On the reality ship
And the world is a toy
For sensational gravity boy

Words in the important points
Is the assassin
Models just them figurines
Yeah just the ones we chose to keep
Look them over vaguely spacy
He spots them
And he will not change
He is a trooper when it comes to that
chorus
