

# Guided By Voices, Subtle Gear Shifting

(I had trouble transcribing this song before I realized that it is total gibberish.)

Business is leaving Pioneer Chambers

Young trackers in angles of jet-speed solar triangles

Cranes of wax

The best of my Chinese lessons gravely

Voters rule in

Plantations of pale pink

Plantations of pale pink

Plantations of pale pink

Crippled dragons ??

Wishing that girl

Mobile rendered ocean

And the swingers get digging

Finalized pollution ?? being stopped

Cast out the groovy engineer to steer clear

Of bakery raids and ambulance puddin'

Foggy no-man lady luck gift

And a bowl of crystallized painter tea

Recommended out of sight revolution

Contact colution contacting General Pettiworth

Splash dinner upshon yo coraggits

Your post case gave you oxygenated sign-language kid

Beambacked scraper of antelopes

Childberry food desserts

Specialized in subtle gear shifting
