

Guided By Voices, Systems Crash

Systems crash, systems crash

Chorus

Systems crash the universe

All emotions are flying

Systems crash the universe

All the systems are dying

Are you watching us watch you?

Are you, are you watching us watch you?

Are you watching us watch you?

Are you watching over black screen?

Are you writing her the blank page?

All the systems are dying

Chorus

Falling all over the globe

Falling all over the globe

Falling all over the globe
