

# Guided By Voices, Watch Me Jumpstart

(R. Pollard)

Watch me jumpstart as the old skin is peeled  
See an opening and bust into the field  
Hidden longings no longer concealed  
Watch me bulldoze every bulldozer away  
Each new obstacle from each old new day  
Where it's going it's hard for me to say

And shoot me down  
And bring me down  
But I won't be around  
As you run through the places you love  
I remember the faces that cry  
And they're pulling me back so I have to die

And watch me jumpstart at the first light of day  
Each new sensation just blows me away  
Don't look now, don't look now, I'm a phase  
Straight from ground zero, X marks the spot  
I can't pretend to be something I'm not  
'Cause I'm a supernova erect and white hot

And shoot me down  
And bring me down  
But I won't be around  
As you run through the places you love  
I remember the faces that cry  
And they're holding me back so I have to die

And watch me jumpstart I'm Maximum Jack  
Shot through the cosmos like an alien attack  
Film finished, fade into black.
