

# Guided By Voices, White Whale

Come now Antoine, give me your hand  
I will fly you across the land  
You were nobody  
Now you're somebody  
We will search for the dream of the king  
And friends will hate us  
And you will lead us  
And you can't change the plan when it's made  
But we have changed it

Die for your freedom while you can  
You can always use new blood

??Sing me Lila negation cow??  
Fish will follow with eyes, man  
Hand on my shoulders  
March with true soldiers  
And in fact, dear, the flesh is no more  
Was burnt for our savior  
Offensive behavior  
And the last whale will swim to the shore  
And the new land of danger

Die for your freedom while you can  
You can always use new blood
