Guided By Voices, White Whale

Come now Antoine, give me your hand I will fly you across the land You were nobody Now you're somebody We will search for the dream of the king And friends will hate us And you will lead us And you can't change the plan when it's made But we have changed it

Die for your freedom while you can You can always use new blood

??Sing me Lila negation cow?? Fish will follow with eyes, man Hand on my shoulders March with true soldiers And in fact, dear, the flesh is no more Was burnt for our savior Offensive behavior And the last whale will swim to the shore And the new land of danger

Die for your freedom while you can You can always use new blood
