

Guitar Gangsters, Gotta Get Out of Here

Here I am sitting in my room.
Something better start happening soon.
I've been waiting here for far too long.
I don't know where I'm going, and I don't know what's wrong.

Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here, right now.

There's nothing going on, nothing going down.
It's a new disease that's going around.
Nothing is happening unlike last year.
I've gotta get out, I've gotta get outta here.

Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here, right now.

There's nothing going on, nothing going down.
It's a new disease that's going around.
I've been waiting here for far too long.
I don't know where I'm going, and I don't know what's wrong.

Gotta get up, gotta get out
Gotta get up, gotta get out

Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here.
Gotta get out, I've gotta get outta here, right now.
