Gun, Stand In Line

You make me wanna rise, you make me wonder why No-one can hold your hand We've lost our self control, we've got no way to go You'll never take our pride

Ohh Ohh Ohh I won't stand in line I said Ohh Ohh Ohh I won't stand in line

You built this world of lies, you made us sacrifice You tried to bring me down You cause this pain inside, I know you've got no right You tried to rule my life

CHORUS:

Ohh Ohh I won't stand in line (I could never look up to nobody like you no) I said Ohh Ohh Ohh I won't stand in line (And I'm doing alright so get out of my life) I said Ohh Ohh Ohh I won't stand in line Can you see, can you see That I'm everything you'll never be

Could you come back, come back, come back

CHORUS:

Ohh Ohh I won't stand in line Never thought of looking up to nobody like you I said Ohh Ohh Ohh I won't stand in line Can you see, can you see That I'm everything you'll never be

Sometimes I get so blind
Sometimes I sacrifice
Sometimes I take that chance
It makes me wonder why
You got to take a chance
You cause the pain inside
I only want what's mine
You built this world of lies
You made me sacrifice
You tried to bring me down
