

# Gunna, Top

Went straight to the top like a fitted (top)  
Still got some act in the fridge (act)  
Pour up let's count up these riches (pour it pour it)  
Still flying bags through the city  
I told you that foreign wasn't rented  
I can't fuck on no boring bitches (no boring bitches)  
Young Gunna was born to get it

I gotta keep going in  
Walk in that flame make it storm again  
When I see this bitch she pick up a ten  
I fucked on her now I wanna fuck her friend  
I'm popping that shit from above the rim  
My drip with my crew and we love to spend (we love it)  
Saint Laurent, Dior, Chanel again  
Scrap on that left with a FN  
Oh yeah, these Maison Margiela vanilla  
G5 we don't fly propeller (nah)  
My coupe filled with paraphernalia (yeah)  
My lil' brother keep a Beretta  
Seem like they got a vendetta (yeah)  
Pull up with with them sticks in the shuttle  
Put my momma in that new Gucci sweater  
They hate to see I'm doing better

Tell my lil' bro don't panic  
Everyday we gone ride with that static  
Them big blue faces I gotta have it  
I got carrots but I don't see no rabbit  
I fucked that lil pussy and vanished  
She say that Young Gunna a savage  
Still had racks when I walked outta Magic  
Hit that nat then I pulled in the palace  
Yea the South turned the kid to a legend (I swear)  
And I can't forget it (nah)  
Rags to riches  
Put that shit on in Givenchy  
I shot it the last minute (last)  
What you thought a nigga wasn't with it?  
I parallel park hop out dripping  
Got drank in my cup I keep sipping  
And my fire gon' come with extension
