

Gunship, DooM Dance (Feat. Carpenter Brut & Gavin Rossdale)

Hey kid
What's the matter
You wanna live forever

Enter the club, that walk so lethal
She blows my mind like nobody else could do
Fame, debaucher disco
She twists your face
Yo she's got it

Dance
I need somebody to
Doom
Raise some hell with you

Can you hear me call
Can you hear me call your name

You stir my blood and my mind feels better
Take me to the place where we live forever
You and I are now mixing together
Higher and higher we're moving forever

Shotgun, hot love in the fast lane
Dark night
Highway to sin with you
Fame, they said never dies
Future proof
Hey we've got it

Dance
I need somebody to
Doom
Raise some hell with you

Can you hear me call
Can you hear me call your name

You stir my blood and my mind feels better
Take me to the place where we live forever
You and I are now mixing together
Higher and higher we're moving forever

You bring the heat right down on me
Give me more, give me more
Give me more, give me more
You bring the heat right down on me
Give me more, give me more
Give me more, give me more

Can you hear me call
Can you hear me call your name

You stir my blood and my mind feels better
Take me to the place where we live forever
You and I are now mixing together
Higher and higher we're moving forever
