

# Gus And Frank, Country Music

I need some cunt cunt' cunt' cunt' country music  
Give me some cunt cunt' cunt.. cunt' country rhymes  
I need those wide open spaces  
The valleys and the places  
They sing good old country music every time

It's been five lonely years since I left you  
It's been five lonely years since I roamed  
But I'm dustin' off my strides  
Come high noon I'm gonna ride  
Back towards my good old country home

I need some cunt cunt' cunt' cunt' country music  
Give me some cunt cunt' cunt.. cunt' country rhymes  
I need those wide open spaces  
The valleys and the places  
They sing good old country music every time

It was cool in the clubs  
But the techno and the drugs  
Were far too much for a country lad to take  
I can groove with the best  
But I think I need a rest  
From the boys and the noise  
Cause my heart aches

I need some cunt cunt' cunt' cunt' country music  
Give me some cunt cunt' cunt.. cunt' country rhymes  
I need those wide open spaces  
The valleys and the places  
They sing good old country music every time

It was fun for a while in the city  
But it's so sad eating out on your own  
You're the only one who wants me  
So I've saddled up the donkey  
For the journey to my good old country home  
Yeehaaaaaa!

Yeehaaaaaa!  
Ooohhhh  
Good old country music everytime

Middle 8!

It was cool in the clubs  
But the techno and the drugs  
Were far too much for a c\*\*t like me to take  
I can groove with the best  
But I think I need a rest  
From the boys and the noise  
Cause my heart aches

For that cunt cunt' cunt'country music  
Give me some cunt' cunt' cunt' cunt'country rhymes  
I need those wide open spaces  
The valleys and the places  
They sing good old country music every time

I need some cunt' cunt' country music  
Give me some good old fashion cunt' country rhymes  
I need those wide open spaces  
The valleys and the places  
They sing good old country music every time

Yeehaaaaaa!
