

# Guster, Either Way

You were almost kind, you were almost true  
Don't let me see that other side of you  
You have learned in time that you must be cruel  
I'll have to wait to get the best of you  
Poison in everything you say  
Don't you, don't you?  
Wonder what difference does it make.....Either way  
You were almost kind, you were almost true  
Why give away that other side of you  
Happens every time, so it must be true  
Step on a kid, he'll grow up hating you  
Poison in everything you say  
Don't you, don't you  
Wonder what difference does it make....Either way  
Were you ever kind, were you always cruel?  
Who's ever seen that other side of you?  
Happened every time, so it must be true?  
Where did you learn it's either him or you?  
You were almost kind, you were almost true  
Don't let me see that other side of you  
You have learned in time that you must be cruel  
I'll have to wait to get the best of you  
Poison in everything you say  
Don't you, don't you?  
Wonder what difference does it make.....Either way [2x]
