

# Guster, Starless Heaven

After all the years away  
I don't feel that much older  
Over the holiday it keeps me away

Standing on the sand  
Staring at the sea  
Waiting for a whale to come and swallow me  
The day is gone now  
Still not swimming

Right at this moment  
Am I where I need to be  
Will I ever be there  
When everything I think I've seen  
A dream impossible to dream  
I'm seeing stars forever  
In a starless heaven

Standing on the sand  
Staring at the sea  
Waiting for a whale to come and swallow me  
All the things I know now  
Still not sinking in

Right at this moment  
Am I where I need to be  
Will I ever be there  
When everything I think I've seen  
A dream impossible to dream  
I'm seeing stars forever  
In a starless heaven

I'm going to the sea to settle down  
I should before I sink into the ground  
I'm going to the sea to settle down  
I should before I sink into the ground

Cause everything I think I've seen  
A dream impossible to dream  
I'm seeing stars forever  
In a starless heaven

I've been knocked down  
I've lost my ground  
I'm take a long look overhead  
I'm seeing stars forever  
In a starless heaven
