

# Guthrie Woody, Little Boxes Beatnik Version

## LITTLE BOXES (BEATNIK VERSION)

See the beatniks in the Village  
See the beatniks on MacDougal Street  
See the beatniks in the Village  
And they all look just the same  
There's a tall one and a short one  
And a white one and a Negro one  
And they all go to the Village  
And they all look just the same  
And the boys all wear dungarees  
And the girls all wear sandals  
And they're all nonconformists  
And they all dress just the same  
And they go to the university  
And they major in philosophy  
And they're all deep thinkers  
And they all think just the same  
And they all read their Sartre  
And they all read their Kierkegaard  
And they all talk about it  
And they all sound just the same  
And they all like folk music  
and they dig Woody Guthrie  
And just like Bob Dylan  
They all sound the same
