

# Guttermouth, My Neighbor's Baby

i came home real late one friday night  
i thought i was going to die  
my head was still pounding from the night before  
we took some fry

just before i laid down to go to sleep  
i heard that noise  
that little baby  
it drives me crazy  
so ive got no choice

my neighbors baby never sleeps a wink  
my neighbors baby gives me the creeps  
that babies got to be stopped somehow  
with a lethal injection of gow (heroin get it)

now that we have rid ourselves of this child  
with a little gow  
its time to have a little fun and clean up  
clean up our town

we scratched a few six six six and swastikas  
right in his head  
we wrote a note and we put it in its hand  
now youll see red

my neighbors baby don't cry no more  
just lies there silently on the floor  
my neighbors baby is gonna help me (how)  
get the filth out of my town

now when i come home late on friday night  
and think im gonna die  
my head may pound yea pound like it did before  
but i did it right

when i lay down down to fall asleep  
and i hear a noise  
i got that baby  
stuffed in a hefty ready to deploy

my neighbors baby that pissed and screamed  
my neighbors baby worked like a dream  
my neighbors baby it can work for you  
that little baby oh i love you
