

# Guttermouth, Secure Horizons

yea i know  
i pissed away a lot of dough

what a waste of time  
i spent every dime  
not planning for a sound financial future

invested in the good times  
you gotta learn to diversify  
livin' large on the west side

inside tip  
a high yield blue chip  
the interest rates will fall  
open gutter mall  
planning for a sound financial future

invested in the good times  
you gotta learn to diversify  
livin' large on the west side

started out with pocket change  
learned about capital gains  
reinvest my dividends  
the dow is on the rise again yeah

oh yeah

ring goes the final bell  
bioteck did fairly well  
power lunch with michael dell  
really didn't go so well yeah

oh yeah

started with some pocket change  
learned about capital gain  
reinvest my dividends yeah  
the dow is on the rise again  
ring goes the final bell  
bioteck did fairly well yeah  
now our mall is pretty fucking tall  
the merger spawned a split  
monopolize then quit that shit  
you got to secure your financial future  
your financial future

invested in the good times  
you gotta learn to diversify  
livin' large on the west side

future invested in the good times  
you gotta learn to diversify  
livin' large on the west side

future
