

# Guttermouth, Veggicide

something's up  
something's on my mind  
i try to go to sleep  
i try to pass the time  
what gives you the right  
to kill a harmless carrot  
growing in god's sunlight  
you say they're best  
you say they're best for you  
i say it's not true  
you say they make  
a damn good stew  
so it's time  
it's time to liberate  
don't eat a carrot  
spare it  
and don't eat the beet  
on your plate

all my friends say  
veggies feel no pain  
all my friends say  
veggies have no brains  
all my friends say  
veggies feel no pain  
don't stir fry by me!  
ya-ya-ya!
