

# Guy Sebastian, Wait

Girl, before you turn and walk away  
Leave me standing here  
Just know I'll always love you  
I never wanna make the same mistakes  
That I made..  
I only have myself to blame  
Girl, I'm sorry..

## CHORUS

Baby, I will wait for you, forever  
However long it takes  
For fate, to bring you back to me  
I wish I realised  
Seen it through your eyes  
All the things I put you through  
Forever, I will wait..

It's hard to watch you  
Move on with your life  
Holding back the tears  
Wishing I could  
Change your mind  
Baby, take a minute  
Can you look into my eyes  
I never meant to make you cry  
And girl, I'm sorry..

## REPEAT CHORUS

## BRIDGE

All the memories of you and me  
Tell me where did they go  
Now I see, how it can be  
So much better than before  
I love you still, I'll always will  
Pray that things will turn out right  
If we can find a way to be together  
You and I will see forever, always..

And I will wait...

## REPEAT CHORUS
