Step into the vibe, swing the episode,  
take it to the bridge, I wanna take you out...[repeat]

Oh, I just get so excited baby,  
think about a day with you and all the fun things that we can do,  
and you make me feel so excited, lady,  
and you ignite the spark that burns deep inside my heart...

All I wanna do is spend time with you, we'll go on and on and on,  
'til the break of dawn...

All I wanna do is spend time with you, we'll go on and on and on,  
'til the break of dawn...

We don't have to get sexual, baby,  
I wanna take walks in the park, and we'd wine and dine until it's dark...  
I just wanna be with u, girl,  
and I'll cherish every moment as if it was the end of the world...

All I wanna do is spend time with you, we'll go on and on and on,  
'til the break of dawn...(on and on 'til the break of dawn)

All I wanna do is spend time with you, we'll go on and on and on,  
'til the break of dawn...(take it to the bridge)

Uh huh, step into the vibe, swing the episode,  
take it to the bridge, I wanna take you out...  
Uh huh step into the vibe, swing the episode,  
take it to the bridge, yup yup...

All I wanna do is spend time with you, we'll go on and on and on,  
'til the break of dawn...[repeat over]

All I wanna do is spend time with you baby,  
so we can go on 'til the break o' dawn...  
I just wanna make love to your mind, penetrating your inner soul...  
And we can have a candlelight night,  
and as I whisper in your ears, you have no fears...  
It's about time we get to each other, elevating our climax,  
elevating our fantasies, G-U-Y2K, 2K, 2K..
