

GWAR, Bloody Mary

Ice world, eternal night, doors are chained and barred
Toiling slaves die in droves, this life is hard
There's a Balrog in the woodpile, in the corner, dead canary
Going down to the dungeon to see my Bloody Mary

Bloody Mary
Pretty scary
She knows what to do with the bone I gotta bury!
Bloody Mary
She's from the surface world
Bloody Mary
Slutty? Very!
She used to shave her pussy now it's getting pretty hairy
Bloody Mary
She's an American girl!

Torches, chains, sweaty straining flesh
The womb explodes in a meat-maggot mesh
The mutant we made was really beautiful baby
We fingered and felched it, then sprayed it with rabies

Bloody Mary
Pretty scary
She knows what to do with the bone I gotta bury!
Bloody Mary
She's from the surface world!
Bloody Mary
Slutty? Very!
I treat my girlfriends even better than Chuck Berry
Bloody Mary
She's an American girl!

Oh bloody, bloody Mary
Your lips are turgid, your ass is cherry
I'll never, never let you die!

The women bleeds but does not die!

When you are immortal the space of many years
Seems just as little as the weight of the tears
That she cried as she waited as the worms they ate her brain
I had her animated but you know it's not the same

Bloody Mary
Pretty scary
Bloody Mary
She's from the surface world!
Bloody Mary
Slutty? Very!
She knows what to do with the bone I gotta bury
Bloody Mary
She's an American girl!
In an Antarctic's world
And there's nothing but death there for you
