Gwen Stefani, U Started It

It's all your fault, but, I'm gonna try

I'm feelin' as bad about me as you are
You know I don't wanna be here
I'm tryin' to work out where these feelings are from
I don't know why I'm doin' this either

[CHORUS]
I know you're right, you win
I don't want any part of it
You know, what I'm like
I give in, even though You Started It

Last time I checked had it under control
But now everything is unclear
Help me correct it I know that I'm wrong
I don't know why I'm doin' this either

[CHORUS]
I know you're right, you win
I don't want any part of it
You know, what I'm like
I give in, even though You Started It

Oh well baby, you were right
Oh no no no hush hush, you were right
Forget about it baby, you were right
Yeah we argue sometimes but please, not tonight

(Hey, you gon' be okay?
Don't worry about it
Sing)

[CHORUS]
I know you're right, you win
I don't want any part of it
You know, what I'm like
I give in, even though You Started It
I know you're right, you win
I don't want any part of it
You know, what I'm like
I give in, even though You Started It

Yeah we argue sometimes but, not tonight, tonight, tonight, tonight...
