

Gyptinan, Serious times

So I say

These are some serious times

All I can see around us is just violence and crime

Full time for us to centralize, socialize and realize

To let the sun shine throughout everyday

Let the moon shine through the peaceful night

This Seven time rise, seven times fall

But I don't really believe in those falling things at all

Cauz life continues as it goes

If you really want to know the truth

The truth is in being told

[Repeat Chorus]

Some time I think it's peace and safety

It could be yah for sudden destruction

Seh yeh wake up dis morning, ya gotta give tunkz

Yeh don't know if you're gonna live to see tomorrow

Life is much more precious than gold

Yea yea, and if the truth hasn't been told

So I say that these are some serious times

All I can see around us is just violence and crime

Full time for us to centralise, socialise and realise

See all the corner, watch how you a hang out pon the corner

A straight-time pharmacy agwann pon di corna

On di corna, the yutes dem really nah hold no water

A stray them go stray and left the border

Cauz a domino them say them gone, now they can play

And a car come in and shots start to spray

Only innocent life can get taken away

[Repeat Chorus]

Some time I think it's peace and safety

It could be yah for sudden destruction

Seh yeh wake up dis morning, yeh gotta give thanks

Yeh don't know if you're gonna live to see tomorrow

Life is much more precious than gold

Yea yea, and if the truth hasn't been told
